SBRG AGROCHEMICALS

PRIVATE LIMITED

About Us

Welcome to SBRG AGROCHEMICALS, a renowned manufacturer and marketer of high-quality agricultural chemicals. With our extensive expertise and cutting-edge technology, we strive to provide the best agrochemicals, fertilizers and insecticides to enhance agricultural productivity.

At SBRG AGROCHEMICALS, we understand the importance of effective agricultural solutions in maximizing crop yields and ensuring food security. Our range of agrochemicals is meticulously formulated to meet the specific needs of farmers and growers, enabling them to combat pests, diseases and nutrient deficiencies effectively. Our agrochemicals are developed using state-of-the-art research and development techniques, ensuring their efficacy and safety. We adhere to stringent quality control measures throughout the manufacturing process to guarantee that our products meet the highest industry standards. By choosing SBRG AGROCHEMICALS, you can trust that you are investing in reliable and sustainable solutions for your agricultural needs.

At SBRG AGROCHEMICALS, we prioritize customer satisfaction and strive to build long-lasting relationships with our clients. Our dedicated team of experts is always available to provide personalized guidance and support, assisting you in selecting the most suitable agrochemical solutions for your specific requirements. We believe in the power of collaboration and work closely with our customers to address their concerns and deliver tailored solutions that yield exceptional results. As a leading manufacturer and marketer of agrochemicals, SBRG AGROCHEMICALS is committed for innovation to optimal productivity.

We continuously invest in research and development to develop new and improved products that meet the evolving needs of the agricultural industry. Our mission is to empower farmers and growers with effective solutions that enable them to overcome challenges and achieve optimal productivity. Explore our website to learn more about our wide range of agrochemicals, fertilizers and insecticides. Contact us today to discover how SBRG AGROCHEMICALS can support your agricultural endeavours and help you achieve success in the ever-changing world of agriculture.

MISSION

At SBRG AGROCHEMICALS ,we are on a mission to develop and deliver cutting-edge agrochemical products that empower farmers to overcome challenges and achieve remarkable results. We are committed to providing superior solutions that maximize crop yields, improve nutritional value, and protect plants from pests and diseases.

Insecticide List

S.No	Product Name	Strength
1	Abamectin	1.9% EC
2	Acetamiprid + Cypermethrin	1.1% + 5.5% w/w EC
3	Alphacypermethrin	10% EC
4	Alpha-cypermethrin	0.667% w/w(200 mg/m2)
5	Aluminium phosphideTablet	56% (f)
6	Aluminum phosphide Powder	56%
7	Bifenthrin	10% EC w/w
8	Bifenthrin + chlorpyriphos	3% + 30% EC
9	Buprofezin + Acephate	20% + 50% (w/w) WP
10	Buprofezin + Acephate	9% + 24% WP
11	Buprofezin + Fipronil	23.1% w/w + 3.85% w/w SC
12	Carbofuran	3% C.G.
13	Carbosulfan	25% DS
14	Cartap Hydrochloride + Buprofezin	50% + 10% WP
15	Chlorantraniliprole	0.4% w/w GR
16	Chlorantraniliprole	18.5% w/w SC
17	Chlorantraniliprole + Abamectin	4.3% w/w + 1.7% w/w SC
18	Chlorantraniliprole + Lambdacyhalothrin	9.3% + 4.6% ZC
19	Chlorantraniliprole + Thiamethoxam	8.8% + 17.5% SC
20	Chlorpyriphos	10% GR
21	Chlorpyriphos	20% E.C.
22	Chlorpyriphos + Cypermethrin	50% + 5% EC
23	Cyantraniliprole	10.26% w/w OD
24	Cypermethrin	25% E.C.
25	Cypermethrin	0.25% DP
26	Cypermethrin + Quinalphos	3% + 20% EC
27	Deltamethrin	2.5 % flow
28	Deltamethrin	2% w/w EW
29	Deltamethrin	11% w/w EC
30	Deltamethrin + Buprofezin	0.72% w/w + 5.65% w/w EC
31	Diafenthiuron	47.8% w/w SC
32	Diafenthiuron	50% WP
33	Dinotefuran	20% w/w SG
34	Emamectin benzoate	5% SG
35	Emamectin Benzoate	1.9% EC
36	Ethion	50% EC
37	Ethion + Cypermethrin	40% + 5% EC
38	Fenobucarb (B.P.M.C.)	50% EC
39	Fenobucarb (BPMC) + Buprofezin	20% + 5% SE
40	Fenpyroximate	5% EC
41	Fenvalerate	20% E.C.
42	Fenvalerate	0.4 % DP

Insecticide List

S.No	Product Name	Strength
43	Fipronil	5% SC
44	Fipronil	0.3% G.R.
45	Fipronil	18.87% w/w SC
46	Fipronil	0.6% w/w GR
47	Fipronil	2.92% w/w EC
48	Fipronil + Acetamiprid	4% + 4% SC
49	Fipronil + Imidacloprid	40% + 40% WG
50	Flubendiamide	20% WG

44	Water Soluble Fertilizer	NPK 13-5-33 + TE
45	Water Soluble Fertilizer	NPK 30-10-10 + TE

For Integrated Pest Management, biological control of pests have become very important and popular. A Bio-pesticide is defined as a form of pesticide based on micro-organisms or natural products. Micro-ogranisms can be used for risk free management of insect pests and diseases related to them. Several colonized living endophytic microbes are studied and found to have anti-insect (pesticidal) properties. These endophytes secretes bioactive secondary metabolites which acts as potent bio-insecticides and are helpful to protect the hosts from infectious agents.

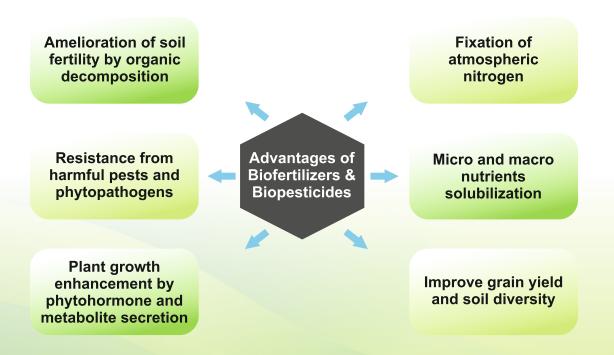

They are classified according to their extraction sources and the type of molecule/compound used for their preparation:

- Microbial Pesticides: e.g. Pseudomonas, Beauveria, Verticillium, etc.
- Biochemical Pesticides
 - Insect Pheromones: e.g. Pheromone or Pheromone–PBP complex.
 - Plant-Based Extracts and Essential Oils: e.g. neem and lemongrass oil.
 - Insect Growth Regulators: e.g. Chitin Synthesis Inhibitors (CSIs).

Bio-fertilizers are living microorganisms of bacterial, fungal and algal origin. Their mode of action differs and can be applied alone or in combination.

Based on type of microorganism, the bio-fertilizer can also be classified as follows:

- Bacterial Biofertilizers: e.g. Rhizobium, Azospirilium, Azotobacter, Phosphobacteria.
- Fungal Biofertilizers: e.g. Mycorhiza
- Algal Biofertilizers: e.g. Blue Green Algae (BGA) and Azolla.
- Actinimycetes Biofertilizer: e.g. Frankia.

Biopesticide List

S.No

Product Name

Dose

1	Karanjin Extract (Bio acaricide/Bio insecticide)	Mix 2 ml per litre of water and spray
2	Annonin Extract (Bio insecticide)	Mix 2 ml per litre of water and spray
3	Azadirachtin 0.03% (300 ppm) E.C.	10 ml per litre of water
4	Azadirachtin 0.15% (1500 ppm) E.C.	5 ml per litre of water
5	Azadirachtin 0.3% (3000 ppm) E.C.	2.5 ml per litre of water
6	Azadirachtin 1% (10,000 ppm) E.C.	1 ml per litre of water
7	Azadirachtin 3% (30,000 ppm) E.C.	0.5 ml per litre of water
8	Azadirachtin 5% (50,000 ppm) E.C.	0.5 ml per litre of water
9	Neem Bitters	5 ml per litre of water
10	Nano Silver & Nano Copper Universal Anti viral and Microbial Disinfectant	2.5 ml per 1 ltr of water and give drenching spray for topical disinfection. For soil drenching at 2.5 ml per ltr of water for soil disinfection
11	Neem Oil (150-2000 ppm Azadirachtin)	15-30 ml Neem oil in 1 litre of water
11	Brawn Mosquito Repellent	Spray as directed
