# MEDICAL TECHNOLOGY

We Provide Trusted & High Quality Medical Devices

**"SBRG Med Tech** embracing the goal by adding smiles to your life."

# BRAWN GROUP OF COMPANIES

**BRAWN GROUP OF COMPANIES** is offering a better life for the people across the globe. We offer healthcare solutions at the highest level to our customer. We are accredited global healthcare company, which is empowered by one of the leading pioneer in the healthcare industry **Mr. BR Gupta**, Managing Director.

**B.R. Gupta**  
Managing Director

As a medical representative, the chasing of a big dream of serving the common man with quality medicines and anti-cancer drugs at affordable price was far from possible. What followed over the years has been the reward of sheer perseverance, passion, zeal and enthusiasm. This journey with its own ups and downs has reinforced my belief that 'Nothing is impossible', provided one religiously follows the core values- Focus, Quality, Unwavering Ethics, Transparency, Commitment and Customer Satisfaction, needless to say our strengths at **BRAWN**.

## VISION

"To be leading strategic and research based global healthcare group creating comprehensive solution for treatment and management of illness with our medical formulations, products and services thereby creating better life across the globe."

## MISSION

"To provide affordable research based quality formulations, products and services across the globe through research, innovation, development and collaborations."

# Upcoming USFDA/EU GMP compliant plant in Halol, Gujarat

## Safety IV Cannula with injection port & with wings

Ergonomically designed wings

Transparent flashback chamber

Cross Clip needle safety guard

## Features

- Extra-Sharp Back Cut bevel :- Universal back cut bevel smoothly inserts into vein with minimal puncture trauma.
- Radio Opaque catheter:- Soft catheter feels comfortable to patient and increased the indwelling time.
- Radio opaque property of catheter is good for X-rays visibility.
- Wing:- provides good stability and inclination angle of catheter to reduce stability related complications.
- Injection Port:- Allows extra passage for quick injection without interruption of main infusion line
- Needle Hub:- Ergonomic design of needle hub for better thumb support during venipuncture.
- Safety clip:- Passive safety clip prevents automatic needlestick injury.
- Flash back Chamber:- Transparent chamber to ensure quick visualization.

## Safety IV Cannula without injection port & without wings

## Infusion/Transfusion Therapy

**Safety I.V. Cannula without injection port and wings** is designed with Passive full automatic safety feature which covers the tip of the needle completely after use, hence protecting healthcare workers against the risk of needle stick injuries and related infections.

Size	Catheter O.D mm	Catheter Length (mm)	Flow Rate (ml/min)	Product Code
14G Orange	2.1	45	270	01011114

22G Blue	0.9	25	36	01011422
24G Yellow	0.7	19	23	01011524

## Features

- Catheter tip is designed for a smooth cannulation experience, Radiopaque Stripes are also present for easy detection of catheter presence under X-Ray.
- Self-activation tip cover technology for protection against needle stick injuries, which cannot be bypassed.
- Universal triple beveled back cut needle, which offer lower resistance during insertion, resulting in minimum trauma.
- Gauge wise color coded body as per international standards.
- Quick Flash back confirm successful cannulation.
- DEHP / LATEX – FREE.

## Intravenous Cannula

I.V. Cannula with injection port and wings

**Size :** 14G to 26G

	Size	Catheter O.D mm	Catheter Length (mm)	Flow Rate (ml/min)	Product Code
14G	Orange	2.1	45	270	01010114

24G	Yellow	0.7	19	23	01010524
26G	Violet	0.6	19	15	01010526

## Features

- Special tapered & Kink resistant FEP radiopaque catheter for easy insertion with optimal flow rate
- Special flexible wings to provide easy and secure fixation
- Manufactured from tested biocompatible materials offering longer indwelling time
- Rounded grip on the needle hub for better support during insertion
- Injection port with non - return silicon valve for intermittent medication

# SB NEEDLE FREE

## Extension Sets

**Needle Free Connector** is a device that connects to a catheter and allow for infusion without the need for a needle.

Size	Mono	Duo	Trio	Quatro	Penta
Product Code	01070101	01070102	01070103	01070104	01070105

## Features

- Fast and safe access to the infusion line.
- Reduced risk of accidental puncture and infection for healthcare professionals.
- Protection of the patient's catheter from contamination.
- Reduction of the risk of device occlusion.
- Flat smooth swabbable surface for ease of disinfection.
- Available standalone and with tubing like mono, duo, trio, quatro, penta with different tube size.

Type	Specification
Mono	Extension Tube small bore Mono-10 cm with needle free connector
Duo	Extension Tube small bore Duo-13 cm with needle free connector
Trio	Extension Tube small bore Trio-15 cm with needle free connector
Duo	Extension Tube large bore Duo-15 cm with needle free connector
Trio	Extension Tube large bore Trio-15 cm with needle free connector
Mono	Extension Tube large bore Mono-10 cm with needle free connector
Duo	Extension Tube small bore Duo-12 cm with needle free connector
Duo	Extension Tube large bore Duo-12 cm with needle free connector
Duo	Extension Tube small bore Duo-12 cm with needle free connector with BCV
Trio	Extension Tube small bore Trio-19 cm with needle free connector
Quatro	Extension Tube small bore Quatro-15 cm with needle free connector
Penta	Extension Tube small bore Penta-15 cm with needle free connector
Standalone	Needle free connector

Needleless Connectors  
**NEUTRAL DISPLACEMENT  
TECHNOLOGY**

Type	Standalone
Product Code	01070106

# T-WAY

## Three Way Stop Cock as an Accessory to Perfusion Sets

It is designed for multiple infusion of medicine, fluids and blood components to patient

### Features

- Smooth Rotation of Handle align easily fluid path.
- Fully validated and can sustain pressure upto 6 bar.
- Fully transparent material allow clear visualization of fluid / medicine.
- Compatibility with other standard accessories.
- Compatible with Lipid drugs also.
- 360° rotation.

# T-WAY-EX

## Three Way Stop Cock with Extension Line

It is the extension line connected one end with three way stop cock and another end with Male Luer lock, used for administration of fluids and medicines to the patients.

### Features

- Smooth Internal path without any flow turbulence.
- Fully transparent and bio-compatible material.
- Transparent, Kink resistant Tubing.
- Universal 6% taper male-female connection.

# VSET STOP PROTEKT™

Intravenous Infusion Set (I.V Set with Auto Air Stop & Priming Filter)

Infusion/Transfusion Therapy

Auto Air Stop Filter

Priming Filter

## Features

- Clear spike compatible with I.V. bottles
- Unique designed ring in drip chamber for secure gripping
- Flexible drip chamber for easy and fast priming (Drop rate 20 drops/mL)
- DEHP free reduces phthalate related toxicity thus ensures Patient Safety
- Suitable for Gravity feed as well as Pressure Infusions up to 2 bars
- Standard tube length: 180 cms
- Latex Free
- Also available with "Y" injection port (latex free), Back check valve, Needle free Y-site & Stop cock

Type	Vented	Non-Vented
Product Code	01020501	01020502

# VSET STOP/LUER/LUER PLUS

Infusion Set for Single Use/Vented/Non-Vented (I.V. Set with Luer Lock only)  
 Vented/Non-Vented (I.V. Set with Luer Lock + Y Connector)

It is used as a passage way of fluid being delivered to the patient. The transfer of the intravenous (IV) fluid is facilitated by gravitational force.

## Features

- Sharp air vented spike easily puncture fluid bottle without any unwanted leakage.
- Smooth Internal path without any flow turbulence.
- Regulator, regulates the volume of flow.
- Transparent, Kink resistant Tubing. Universal 6% taper Male connection.
- The product is sterilized using EO (Ethylene Oxide) gas.
- Wing Type attractive design available in vented/Non-Vented features.
- Also available with Y Connector & Luer Lock

I.V. Infusion Set

Type	Vented	Non-Vented
Product Code	01020101	01020102

I.V. Infusion Set with Luer Lock + Y Connector

Type	Vented	Non-Vented
Product Code	01020401	01020402

# VREG SET

## IV Flow Regulator

**IV Flow Regulator** extension set to regulate the flow of IV fluid from an infusion set into an I.V catheter.

## Features

- Super smooth kink resistance tubing ensures uniform flow rate.
- Designed to control flow rate from 5ml/hr - 250 ml/hr manually.
- Option available with "Y" connector injection site for extra medication without disturbing the main line.
- Universal Male and female luer lock makes it compatible with other devices.
- Available with DEHP free material.

Type	Product Code
'Y' Type Connector	01090101

# INTRAVENOUS INFUSION SET

Intravenous Wing type Drip Chamber

Infusion/Transfusion Therapy

Luer Lock

Y Connector

## Features

- Sharp air vented spike easily punctures fluid bottle without any unwanted leakage
- Smooth Internal path without any flow turbulence
- Regulator regulates the volume of flow
- Transparent, Kink resistant Tubing
- Universal 6% taper Male connection
- Available in Vented/Non-Vented
- Available in attractive wing type drip chamber Big and rotating luer lock
- The product is sterilized using EO (Ethylene Oxide) gas

## Infusion Set Wing Type

Type	Vented	Non-Vented
Product Code	01020105	01020106

# MVF SET

## Measured Volume Set

A burette set is specially design to deliver a fixed volume of IV fluid at fixed rate, usually with added medication.

Type	Product Code
100 ml	01060103
110 ml	01060101
150 ml	01060102

## Features

- Specialized measured volume set made up of DEHP free material.
- Equipped with a micro drip with reduced drop size of 60 drops per ml.
- Provided with a burette type chamber of 100 ml capacity with 10 ml overflow limit.
- Burette chamber is made of bio-compatible medical grade transparent styrene polymer, suitable for infusing all types of fluids.
- Unique floating auto shut off valve acts as a floating indicator and automatically shuts off the drain path to prevent the passage of air in the line.
- No-kink device prevents kinking of tube during transportation and transfers.
- Separate plugs for extra medication and change over.
- Sterile, individually packed.

### OPTIONS AVAILABLE

- Capacity : 100ml, 110ml & 150ml
- Drop Rate : 60 drops/ml

# SCALP VEIN SET

Scalp Vein Set

Infusion/Transfusion Therapy

## Features

- A short beveled siliconized needle facilitates atraumatic cannulation.
- Thin wall needle provides better flow rate per gauge.
- Butterfly shaped wings facilitate easy handling and attachment with the skin.
- Butterflies are color coded for instant identification of needle size.
- The proximal end of the set is provided with flexible female luer fitting.
- Butterfly connected to soft non-toxic, nonirritant tube which does not kink or coil.
- Sterile, individually packed in Blister pack.

# SB BLOOD FLOW SET

Blood Transfusion Set/with Rotating Luer Lock without Needle/with Y Connector

## Features

- Sharp non-vented spike suitable for blood bags and all type of standard blood containers.
- Provided with a cylindrical drip chamber with 200 filter to prevent passage of any blood clots, down the path.
- Flash ball type injection port for extra medication.
- Comes with smooth 150 cm long, kink resistant tube.
- Efficient roller controller for accurate adjustment of transfusion rate.
- Sterile, individually packed.

- Universal Female mount.
- High quality Bio-compatible material.
- Kink resistant PVC tubing with Radio-opaque line.
- Available length 50 cm.
- Size :- 5FG to 24FG.
- DEHP free material

## Options Available

# NASAL OXYGEN CANNULA

Nasal Oxygen Cannula

Anaesthesia & Respiratory Care

**Nasal Oxygen Cannula** is a medical device to provide supplemental oxygen therapy to people who have lower oxygen levels.

Neonatal

Paediatric

Adult

## Features

- Kink resistant medical grade tubing.
- Star lumen tube for better connection and avoid blockage.
- Efficiently administration of oxygen to the patient.
- Bio-compatible material of soft twin prong nasal tip ensure equal distribution of oxygen.

Size	Product Code
Neonatal	04080101
Paediatric	04080102
Adult	04080103

# ORO-PHARYNGEAL AIRWAY

## Oro-Pharyngeal Airways

The **Oro-pharyngeal Airways** devices maintain un-obstructed respiration and prevent patients from biting the tongue after general anaesthesia

### Features

- The oro-pharyngeal airway devices are made from the raw material of PE.
- Rounded atraumatic edges.
- Made from semi-rigid non toxic Polyethylene.
- Bite block to prevent biting of tongue and airway occlusion.
- Smooth airway path for easy cleaning.
- Color coded for easy identification of sizes
- Individually packed, EO Sterile.
- Shelf life-5 Years.
- Size : 000, 00, 0, 1, 2, 3, 4, 5

# OXYGEN MASK

## Rebreathing Oxygen Face Mask

**Oxygen Mask** is the device to transfer breathing oxygen gas from a storage tank to the lungs

### Features

- Smooth and feathered edge of face mask for patient's comfort and reduce irritation points.
- Super smooth kink resistance tubing ensures uniform flow rates.
- Proximal end of tube is connected with funnel shape connector for easy connection with oxygen source.
- Star lumen main tube to avoid accidental blockage.
- Tube length : 210 cm.
- Available size :- Adult, Paediatric & neonatal.

Size	Product Code
Paediatric	04010101
Adult	04010102
Neonatal	04010103

# ENDOTRACHEAL TUBE

## Endotracheal Tube

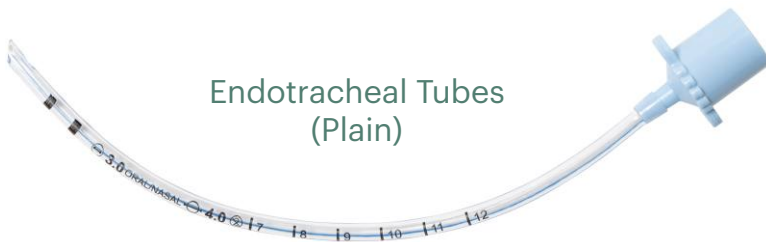

## Anaesthesia & Respiratory Care

It is used to provide oxygen and inhaled gases to the lungs and protects the lungs from contamination, such as gastric contents or blood.

Endotracheal Tubes  
(Cuffed)

Endotracheal Tubes  
(Plain)

## Features

- High Volume, low pressure cuff, maintains seal throughout ventilator cycle.
- X-ray detective line available.
- Thermosensitive PVC allows the tube to soften at body temperature to confirm airway anatomy
- Clear PVC tube with Visible marking for easy observation.
- Murphy eye smoothly formed to allow ventilation in the event of obstruction to the end of tube during intubation.
- Universal 15mm Connector at proximal end.
- Available with DEHP free Material.
- Sterile/Disposable / Individually packed.

# SPIROMETER EXERCISER

## Spirometer - Lungs Exerciser

**Respiratory Exerciser** is used as a comprehensive deep breathing exerciser

## Features

- Restores and maintains lung capacity in post operative patients by slow, synchronized deep breathing.
- Allows visual calibration and estimation of the patients progress.
- Strengthens primary and accessory respiratory muscles and conditions them.
- Enhances endurance of both inspiratory and expiratory muscles.
- Improves respiratory parameters, Improves maximal exercise capacity.
- Improves cardio-pulmonary status of the patient, enhancing the overall fitness and well being.
- Increases circulation of hormones in the blood which increase the blood flow to the heart, brain and lungs.
- Improves oxygenation of blood, reduces fat levels by burning calories.
- Assists pulmonary rehabilitation in patients with COPD, improves the quality of their life.
- Sustained deep breathing has been shown to relieve anxiety and fight stress.

Type	Product Code
STANDARD	04100101

# SB BREATHING CATHETER

## Mucus Extractor

## Anaesthesia & Respiratory Care

**Mucus Extractor** is a device which is indicated for use in new-borns, infants or small children to clear the secretion from oral cavity.

## Features

- Specially designed for aspiration of secretions from oropharynx in newly born babies.
- Clear transparent container permits immediate visual examination of the aspirate.
- Also suitable for obtaining mucus specimen for micro biological examinations.
- Spare plug cap is provided to seal the container for safe transportation of specimen to laboratory or aseptic disposal of container.
- Sterile, individually packed in a peelable medical grade paper pack / poly bag
- Available in container size 25ml

# SB VENT CIRCUIT

## Ventilator Circuit

Ventilator circuit is the gas pathway connecting patients lung to the mechanical ventilator.

Ventilator Circuits with one water trap

Size	Product Code
Adult	04110101
Paediatric	04110102

Ventilator Circuits with two water trap

Size	Product Code
Adult	04110201
Paediatric	04110202

## Features

- Re-sealable water-trap provides a perfect sealing while removal of excess collection of water from the water-traps giving a continuous flow.
- Made of high quality medical grade plastic with 22M-22F straight connector.
- Transparent for easy monitoring of water build-up or blockages.
- Corrugated, Flexible and Light weight tubing 1.6 meter with single and double re-sealable water trap, 'Y Piece' with monitoring port.
- Individually packed in poly pack, Available sizes : Adult and Pediatric.

# NEBULIZER MASK

## Nebulizer Mask

## Anaesthesia & Respiratory Care

### Features

- Soft, clear Aerosol Mask with anatomical form is ideal for long term use.
- Gently rolled, feathered edges with integrated nose bridge for extra comfort.
- Swivel connector for convenience of nebulization in horizontal and vertical position.
- Larger surface area provided by unique convex cone design, ensures maximum capillary action, and eliminates medicinal wastage.

Size (210 cm Tube)	Product Code
Child	04020101
Adult	04020102

# HME FILTER

## Heat and Moisture Exchange Filter

**HME Filters** used to maintain passively heat and moisturizer levels of air prevent any bacteria or viruses from entering the patient's airways.

### Features

- Provides effective protection against various types of particles including bacteria, viruses, and moisture droplets.
- Precisely engineered and easy to use device made up of high strength plastic material offering reliable performance.
- Provided with high efficiency electrostatic filters to address concerns associated with ventilated patients.
- The filters help protect the patient, the equipment, and the breathing circuit from contamination.
- Enhances particle capture efficiency and give a low and stable breathing resistance even when wet.
- A conveniently located port or connection permits gas sampling at the top of the housing,
- H.M.E.F's are designed according to "ISO" standards to help facilitate connection to different ventilators and anesthesia systems.

Size	Product Code
Paediatric	04040101
Adult	04040102

## Closed-Ended Wearable Urine Collection Bag

A **Urine Collection** device allows an individual to empty their bladder into a container hygienically and without spilling urine.

### Urine Collection Bag with Top Outlet

Urine Collection Bag - 2000ml

Variants	Code
Top Outlet	03010105
Bottom Outlet Pull Push	03010205
Urine bag with measuring bottle	03010305
Urine bag (Bottom Outlet T-Type)	03010405

### Urine Collection Bag with Bottom Outlet T-Type

Urine Collection Bag with Measuring bottle

Size	Code
250ml	03010302
500ml	03010303
750ml	03010304

## Features

- Super smooth kink resistance tube provided with universal tapered connector.
- Specially designed hook or hanger facilities for carrying, handling and holding the tube in upright position.
- Efficient non-return valve prevents the back flow.
- Bag graduated in ml to indicate the quantity of urine collected.
- Transparent sheeting allows visual inspection.
- Also available in push pill valve, top outlet, bottom outlet.

# P-DRAIN BALLOON CATH

## Foley Balloon Catheter

## Urology

**Foley balloon** is a flexible tube that a clinician passes through the urethra and into the bladder to drain urine

Length	Approx. 40 cm			Length	Approx. 40 cm	Length	Approx. 30cm	

## Features

- Non-toxic, bio-compatible and extra smooth for maximum patient comfort.
- Symmetrical balloon, rounded sealed tip and hard non-return.
- X-ray opaque line allows for confirmation of intubated tube using X-ray.
- Soft and uniformly inflated balloon makes the tube sit well against the bladder.
- Smooth round shaft can minimize trauma during insertion and withdrawal.
- Comes as 2-way or 3-way design. 3-way design helps in irrigation of bladder and sometimes for therapeutic instillation.
- Colour coded for easy identification.

# NELATON CATHETER

Nelaton Catheter

Urology

## Features

- Nelaton catheters are used for short term bladder catheterization.
- Manufactured from non-toxic, non-irritant medical grade PVC compatible with catheter lubricants.
- Frozen surface tubing for super smooth intubation.
- The presence of radio opaque line throughout the catheter tube.
- The distal end is coned for non-traumatic introduction with two lateral eyes for efficient drainage.
- The proximal end is fitted with universal funnel shaped connector for extension.
- Funnel shape connectors are color coded for instant identification of sizes.
- Straight packed in peelable soft blister pack.
- Sterile, ready for use.

# RYLE'S TUBE

## Ryle's Tube

## Gastroenterology

**Ryle's tube** is a narrow-bore tube passed into the stomach via the nose. It is used for short- or medium-term nutritional support, and also for aspiration of stomach contents - eg, for decompression of intestinal obstruction.

## Features

- Smooth close distal end with two lateral eyes.
- Universal Female mount.
- High quality Bio-compatible material.
- Kink resistant PVC tubing with Radio-opaque line.
- Available length 40, 50 & 100 cm.
- DEHP free material
- Size :- 06 FG to 24 FG.

# INFANT FEEDING TUBE

## Feeding Tube

It is used to feed a person who is unable to eat or drink. A person may need a feeding tube due to difficulty swallowing, an eating disorder, or other feeding issues.

### Features

- Smooth close distal end with two lateral eyes.
- Universal Female mount.
- High quality Bio-compatible material.
- Kink resistant PVC tubing with Radio-opaque line.
- Available length 40, 50 & 100 cm.
- Size :- 4 FG to 10 FG.
- DEHP free material.

# SB DRAIN KIT

## Under Water Seal Drainage System

## Surgery and Wound Drainage

Underwater seal **Chest Drainage** is used to restore proper air pressure to the lungs, reinflate collapsed lungs as well as remove blood and other fluids.

### Features

- Moderate to heavy drainage.
- Accurate, graduated marked on the bottle to determine the amount of collection.
- Clearly marked initial level ensures effective under water seal.
- Complete positive and negative pressure controls.
- Proprietary unit for pneumonectomy.
- Color-coded, needleless Quick-disconnect tubing for patient blood s:
- Generous collection chambers holding up to 500, 1200 & 2000 cc of
- Double chamber and single chamber compact unit suitable for all cardiac and thoracic procedures.
- Range appropriate for controlling massive, moderate, and small drainage systems.
- There is a suction port available for connecting to the suction device.
- Large bore kink resistant tubing allows for unhindered flow.
- Hangers made of metal for simple connection to the patient's bedside.
- Sterile, individually packed.

# YANKAUER SUCTION TUBE & SET

## Yankauer Suction Tube & Set with Handle

Yankauer suction tube & set with handle is a suction set used for the removal of blood and fluids during surgery

Standard Tip

### Features

- Tube length is 250 cm.
- Soft, flexible & kink resistant tube
- Ribs on the outer surface for better grasping.
- Siliconized sleeve on the handle for smooth operation.
- Suitable for intra-surgical removal of secretion and body fluids.
- Thumb control Yankauer handle available in standard or crown tip.

Type	Product Code
Plain Tip	06020101
Crown Tip	06020102

# THORACIC TROCAR CATHETER

## Thoracic Trocar Catheter

It is used to remove air in the case of pneumothorax or fluid such as in the case of pleural effusion, blood, chyle, or pus when empyema occurs from the intrathoracic space

## Features

- Super Smooth Kink Resistance tubing ensures uniform flowrate.
- Catheter Without Trocar:- Atraumatic, Soft Rounded, Open Distal end with six lateral eyes for non-traumatic insertion.
- Catheter with Trocar:- Atraumatic, soft rounded, open distal end with two lateral eyes for non-traumatic insertion.
- Cross side eyes to prevent tissue aspiration.
- Proximal end is fitted with tapered connector for easy connection to drainage bottle.
- X-ray opaque line provided throughout the length of catheter.
- Marking on catheter is provided at from the distal end to help ascertain placement.
- Available with DEHP free material.

# UMBILICAL ARTERY CATHETER

## Umbilical Artery Catheter

Others

### Features

- Designed for intermittent or continuous access to the umbilical vessels of newborn or pre-mature infants.
- Suitable for monitoring blood pressure, withdrawal of blood for sampling without repeated needle pricks, intra venous
- Infusion and exchange transfusion etc.
- Smooth round tip helps easy cannulation and silk finish surface further facilitates the passage of catheter in the vein / artery.
- Open distal end without lateral eyes, eliminates the chance of clot formation in the blind spaces.
- Radio opaque line is provided for X-ray visualization.
- Clear scale markings at every cm helps to ascertain depth of insertion.
- Proximal end is fitted with female luer mount for convenient connection to I.V therapy equipment.
- Individually packed in peelable Pack.
- Sterile, ready for use.

# UMBILICAL DEVICE

Umbilical Occlusion Device

It is used for binding of the umbilical cord by nipper to interrupt blood flow from placenta to foetus.

## Features

- Designed finger grip provision for easy to use.
- High quality Bio-compatible material.
- Serration along the length prevent slipping of the umbilical cord.
- Manufactured from non toxic medical grade polymer.
- Easy Re-open facilities.
